## Apple CarPlay™

Apple CarPlay™ allows you to make calls, send or receive messages, and listen to music using your iPhone® with the Mazda Connect, or search for destinations using the maps. In addition, voice recognition using Siri® is available.

### **! WARNING**

**Do not allow the cord connected to the USB port to get tangled in the selector lever/shift lever.**

If the cord gets tangled, it could be a distraction to your driving and result in an unexpected accident.

### **! CAUTION**

- Do not place items or apply force to the USB port or console box lid with the plug connected.
- Depending on the mobile device to be connected, noise may occur when using the device with it connected to the accessory power socket equipped on the vehicle (if noise occurs, do not use the accessory power socket).
- Do not leave your iPhone® in the cabin. Otherwise, the cabin temperature will increase to a high temperature under direct sunlight which could cause damage.

### NOTE

- Before use, carefully read the user instructions for the iPhone®.
- Do not use the Mazda Connect for a long time with the engine stopped. Otherwise, the battery power could be depleted.
- Insert the Apple®-genuine connector cord into the USB port securely.

### Connecting an iPhone®

Insert an Apple®-genuine connector cord into the USB port and connect the iPhone®. Insert or pull out the plug with the plug perpendicular to the USB port.

1. Located on center console

2. Located on front console

The location of the USB port differs depending on the vehicle model.

**NOTE**

- When an iPhone® connected to Bluetooth® is connected to the vehicle's USB port, the system switches to Apple CarPlay™. Applications that you were using when connected to Bluetooth® can continue to be used. However, the functions that can be used with a Bluetooth® connection and the functions which can be used by Apple CarPlay™ differ depending on the application.
- **(U.S.A./Canada)**  
 Mobile 911 can be activated even when connected to Apple CarPlay™. When using Apple CarPlay™ again after activating Mobile 911, you need to disconnect the connector cord from the USB port and then reconnect it.
- Up to 5 iPhone® devices can be registered as devices connected to Apple CarPlay™.
- When setting the Device Connection Status of a connected iPhone® to “Never Enabled”, Apple CarPlay™ will not activate even if your iPhone® is connected to the vehicle’s USB terminal. When you want to use Apple CarPlay™, change the setting. Refer to Connectivity Settings on page 2-126.

**Connecting Apple CarPlay™ for the first time**

When connecting Apple CarPlay™ for the first time, a confirmation screen concerning Apple CarPlay™ activation is displayed.

**Always Enable:** Enables Apple CarPlay™ each time without a confirmation.

**Never Enable:** Disables the currently connected device hereafter.

**Enable Once:** Enables the device only this time.

**Cancel:** Disables the device this time.

**NOTE**

If you select “Enable Once”, the confirmation screen is displayed again the next time the engine is started.

However, if the interval between stopping and starting the engine is short, the confirmation screen may not be displayed.

## Displaying the Apple CarPlay™ screen

 is displayed on the Mazda Connect home screen while Apple CarPlay™ is connected or press and hold the Home button.

Slide the  to the right while  is displayed to display the Apple CarPlay™ screen or press and hold the Home button.
